# Hurray for digital diversity!

If the first issue of Press PLAY Again was essentially a bet by the editorial staff of RetroMagazine World, this second one might easily be considered a confirmation.

It was a bet because we were not sure if the world of retrogaming was ready for the return of newsstand magazine cover tapes... Well, judging by the number of downloads, the answer is definitely positive. In less than a month the Italian and the English versions have registered more than 2800 downloads. Not bad at all for this new editorial experiment!

In this second issue we'd like to confirm the good things done and possibly go a little further. How? By increasing the variety of our offer. Still 5 games, but this time they're for 5 different platforms, one of which (the ATOM by the English Acorn) practically unknown by the big public in all Europe. Hurray for digital diversity! We really hope to push more users to discover the old microcomputers born in the 80s, try different configurations and play games with these charming systems.

But... we can't do everything by ourselves. Your contribution is essential to secure a bright future to this publication and to ensure your works are shared and appreciated as they deserve!

If you have created games and would like to see them published in this booklet, do not hesitate and contact us at our email address:retromagazine.redazione@gmail.com

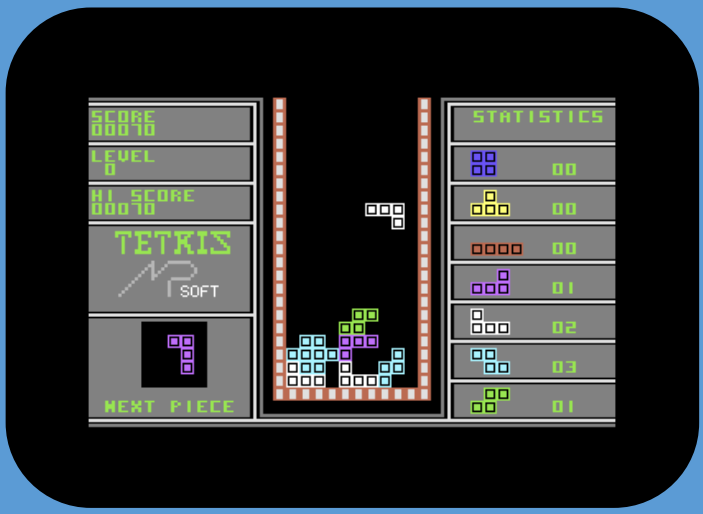
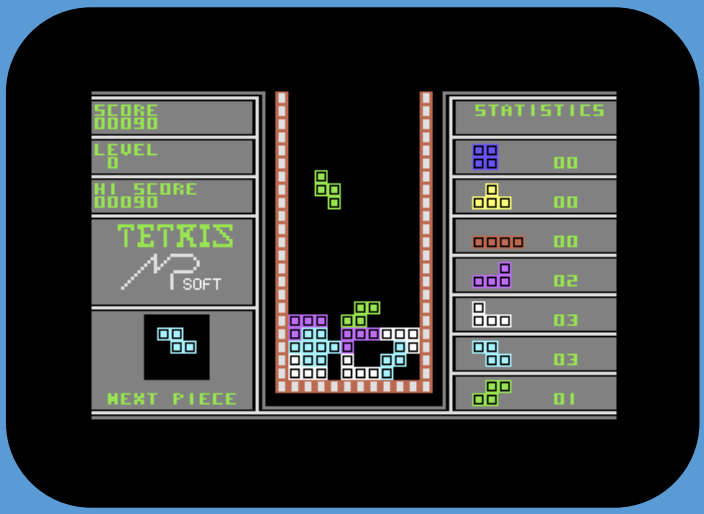
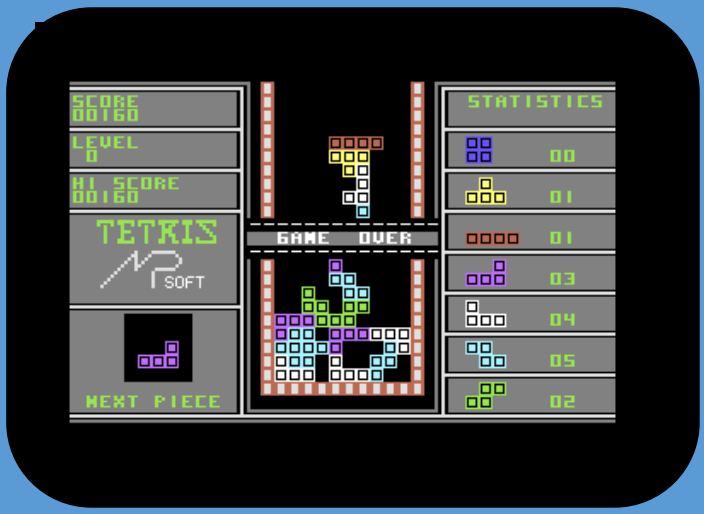
# TETRIS (Commodore 64)







TETRIS: TETRAMINO (4 blocks in each piece) + TENNIS (Alexei Pajitnov's favourite sport. Alexei is the creator of the original game).
MPSoft: "Marco Pistorio's Software" has been delighting all C64 users with his demos and games for years.
PPA2: Press Play Again n. 2, to publish one of the best titles of "our" Marco.
A huge thanks to each one of these ingredients, as they fitted perfectly, like the pieces of Tetris, in an important issue of PPA, to contribute to the endless fun of the retrogamers. Beyond the puns, don't miss this wonderful version of Tetris in "Russian"

# La culotte de Zelda (Amstrad CPC)

Long ago, in a far, far away world, there lived a sexy princess named Zelda.
She ruled over the kingdom of Hyrule with wisdom and elegance. But one fine day the gods decided to punish her and she was banished to the other side of the ocean. Alone, a prisoner and above all without any spare panties! You are Link, a spy from the FISTENDO agency, in charge of finding the 4 panties that the princess left lying around and returning them to her.
Configuration: Amstrad 6128 Plus
Now go, the journey is long and difficult.

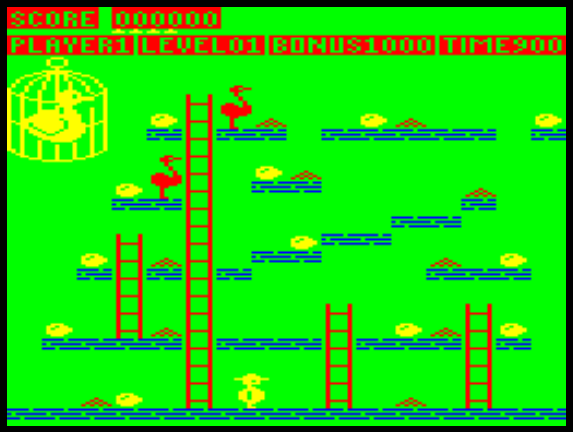
# ATOMIC CHUCKIE EGG (Atom)

ACORN ATOM



Every holy morning Hen House Harry wakes up with a nasty tachycardia: on his daily schedule are 12 eggs to collect. Some of the eggs will be suspended in the air! There will be elevators and ladders to climb up and down! And there will be angry ducks that won't make his life easy!

Harry will also have to make sure the huge mama duck doesn't escape from her cage! And he'll have to get the job done in a limited amount of time! The day is over, Harry is alive and can put down his hat. But it's only a small quiet before the next storm!

# METAMORPHOSIS (ZX Spectrum)

The alien was feasting on a freshly killed creeping creature. The dark bowels he had invaded were as usual - sinister, deep, identical to the day before, when he had killed two others.

From the ceiling could be heard the comforting sound of dripping acid. Suddenly a noise ripped through the silence and his body exploded in a painful mutation.

The alien's new evolution would soon bring certain death to its juicy victims.
